Director  
Central Intelligence Agency  
McLean, VA

Dear Sir:

We are a small computer service firm engaged largely in data base management work. I have handled mail list maintenance, telephone directory library information, scientific data base, etc.

The company is minority-owned and operated and has worked in many cases for the Korean community in the greater Washington Area.

I am interested in exploring the possibility of doing data base management services for the federal government.

One of my specialties is the use of data base in Korean language. I have recently developed a sorting program in Korean alphabets along with a unique coding method relating the Korean alphabet to the ASCII code. This will offer new methods of handling any information written in Korean words. I would be most eager to contribute to the works of the Central Intelligence Agency in the cases related to Korea.

Please forward this letter to an appropriate office. I would be most happy to answer any questions from CIA particularly regarding the new data processing capability in Korean language.

Sincerely yours,

*Pilwon Kang*
